### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kourosh Salehi (Reg. #43,898) on February 11, 2005.

Please amend the claim(s) as follows:

10. (Currently Amended) A MOSgated semiconductor device comprising:  
a semiconductor die having an epitaxial layer of a first conductivity type formed over a substrate;  
a channel region of a second conductivity type formed in said epitaxial layer;  
a plurality of spaced trenches formed in said epitaxial layer;  
a first region of a first conductivity type formed at the bottom of each trench, each said first region of said first conductivity type being adjacent to said epitaxial layer and of a higher conductivity than said epitaxial layer;  
a plurality of source regions of said first conductivity type each disposed adjacent a trench;  
a source contact formed over said epitaxial layer and in ohmic contact with said plurality of source regions; wherein a conductivity of said first regions of said first conductivity type and a

conductivity of said field relief regions are substantially equal [[being selected to create a superjunction in said device]].

12. (Currently Amended) A device according to claim 10[[claim 11]], wherein said field relief regions are spaced from said channel region.

*Allowable Subject Matter*

Claims 1, 4-10, and 12-20 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art of record, either singularly or in combination, does not disclose or suggest the combination of limitations including wherein said field relief regions are spaced from said channel region.

Regarding claim 10, the prior art of record, either singularly or in combination, does not disclose or suggest the combination of limitations including wherein a conductivity of said first regions of said first conductivity type and a conductivity of said field relief regions are substantially equal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
